

MARVEL

SPIDER-SENSE SPIDER-MAN

IT'S LIGHTS OUT WHEN ELECTRO

STARRING

Clemens

Spider-Man and Clemens have come to the city's power plant because something strange is going on.

Yikes! My spider-sense is tingling big time, Clemens.

Yeah, and with good reason. Look at all those bolts of electricity shooting out of the power plant.

Inside the power plant.

If New York City wants its lights turned back on again it'll cost them one billion dollars.

We better put a stop to him. You take him head on and I'll come in through the back and surprise him.

Shocked to see me?

It's Electro. He's causing a power outage.

Spider-Man?!

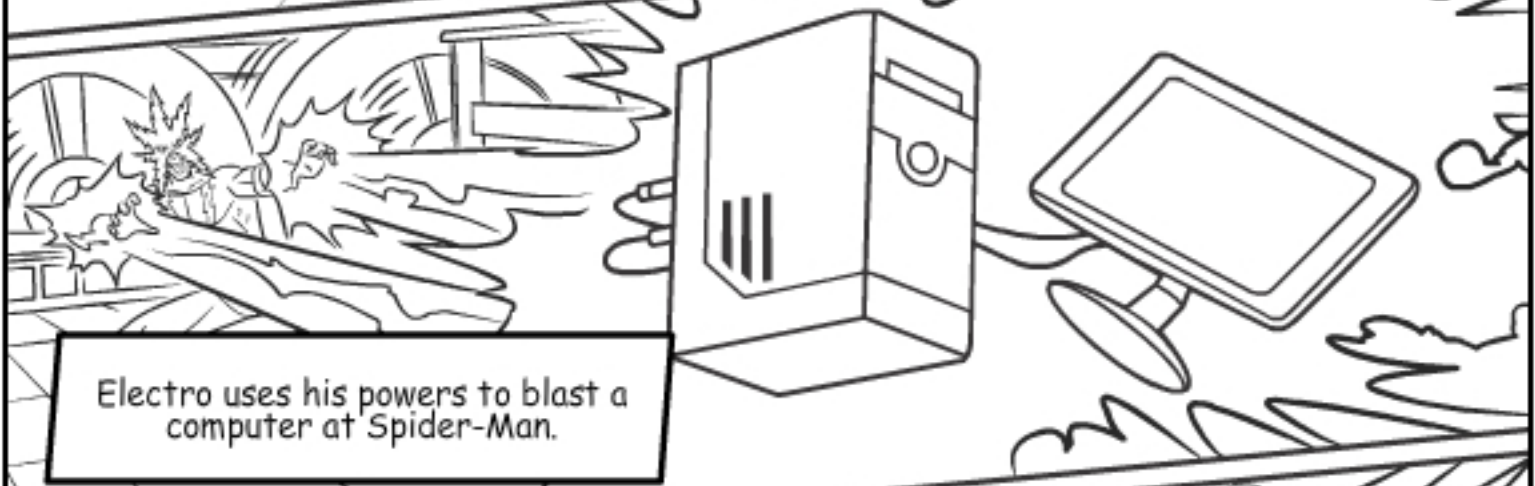

A black and white line drawing of Spider-Man in a crouched position, dodging a large, rectangular net of webbing. The net is suspended by thick ropes and has a grid-like pattern. Spider-Man is on the left side of the frame, looking towards the net. On the right side, a large, spiky, and somewhat monstrous character with a wide, toothy grin and wild hair is reaching out towards Spider-Man. The background shows a simple structure with beams and a tiled floor.

Whoa! Just missed me.
This net of webbing
should slow you down.

I'll show you what it
means to be
shocked, Spider-
Man.

Your webs are no match for my electrical powers.

Electro uses his powers to blast a computer at Spider-Man.

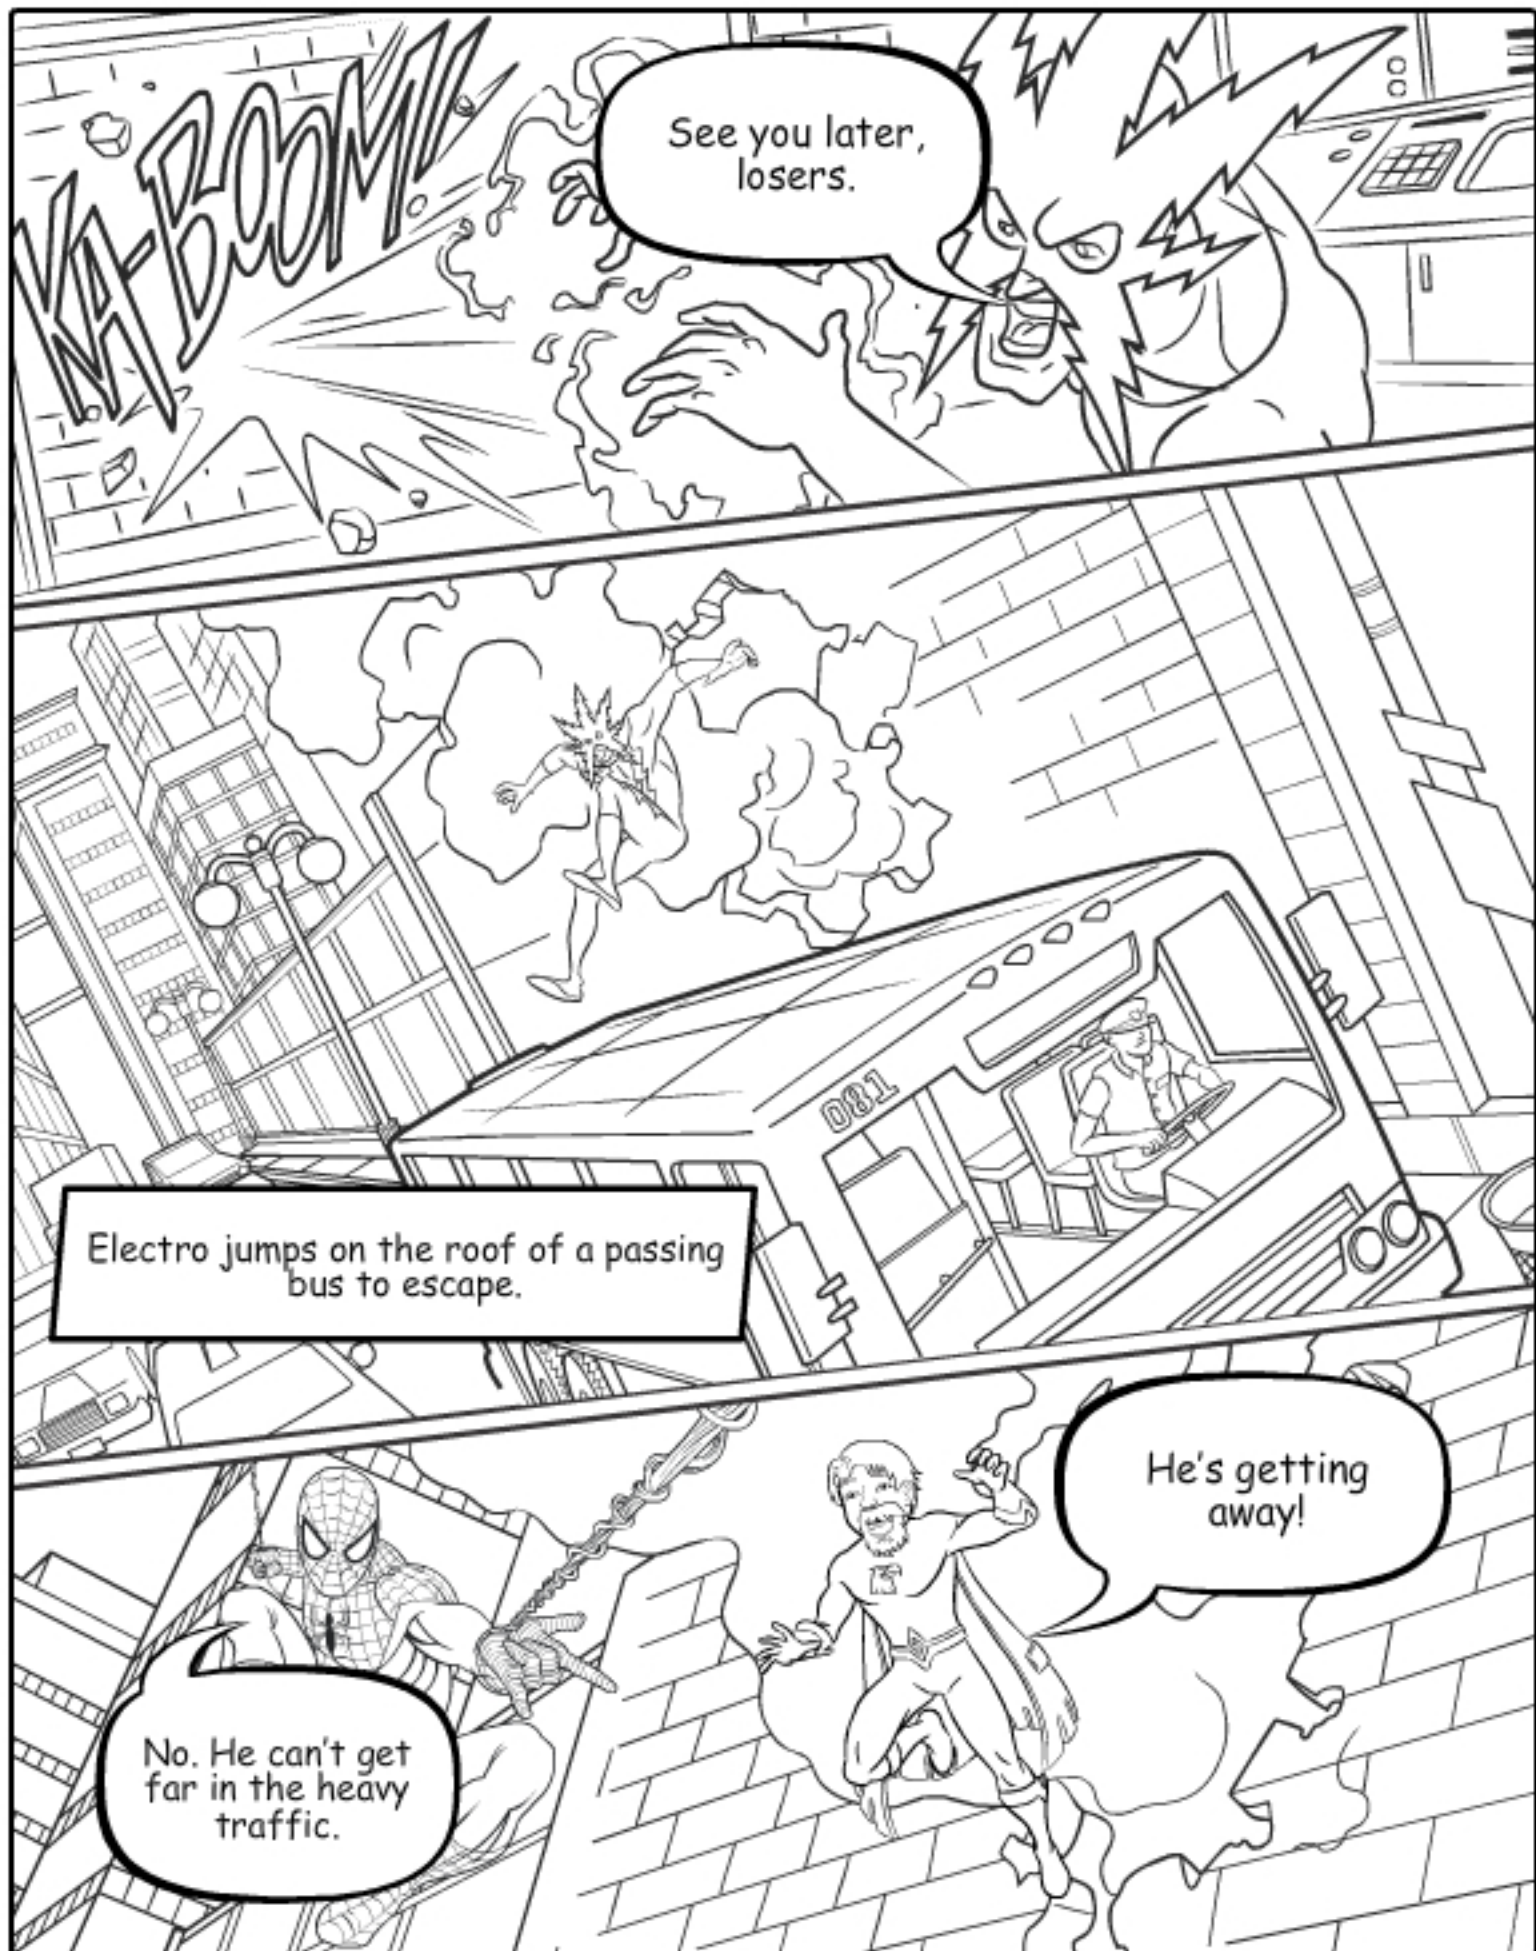

CRASH!

Electro is fast, but Spider-Man is faster and safely jumps out of the way.

Hey, Electro, it's lights out for you. Time to surrender.

I don't think so.

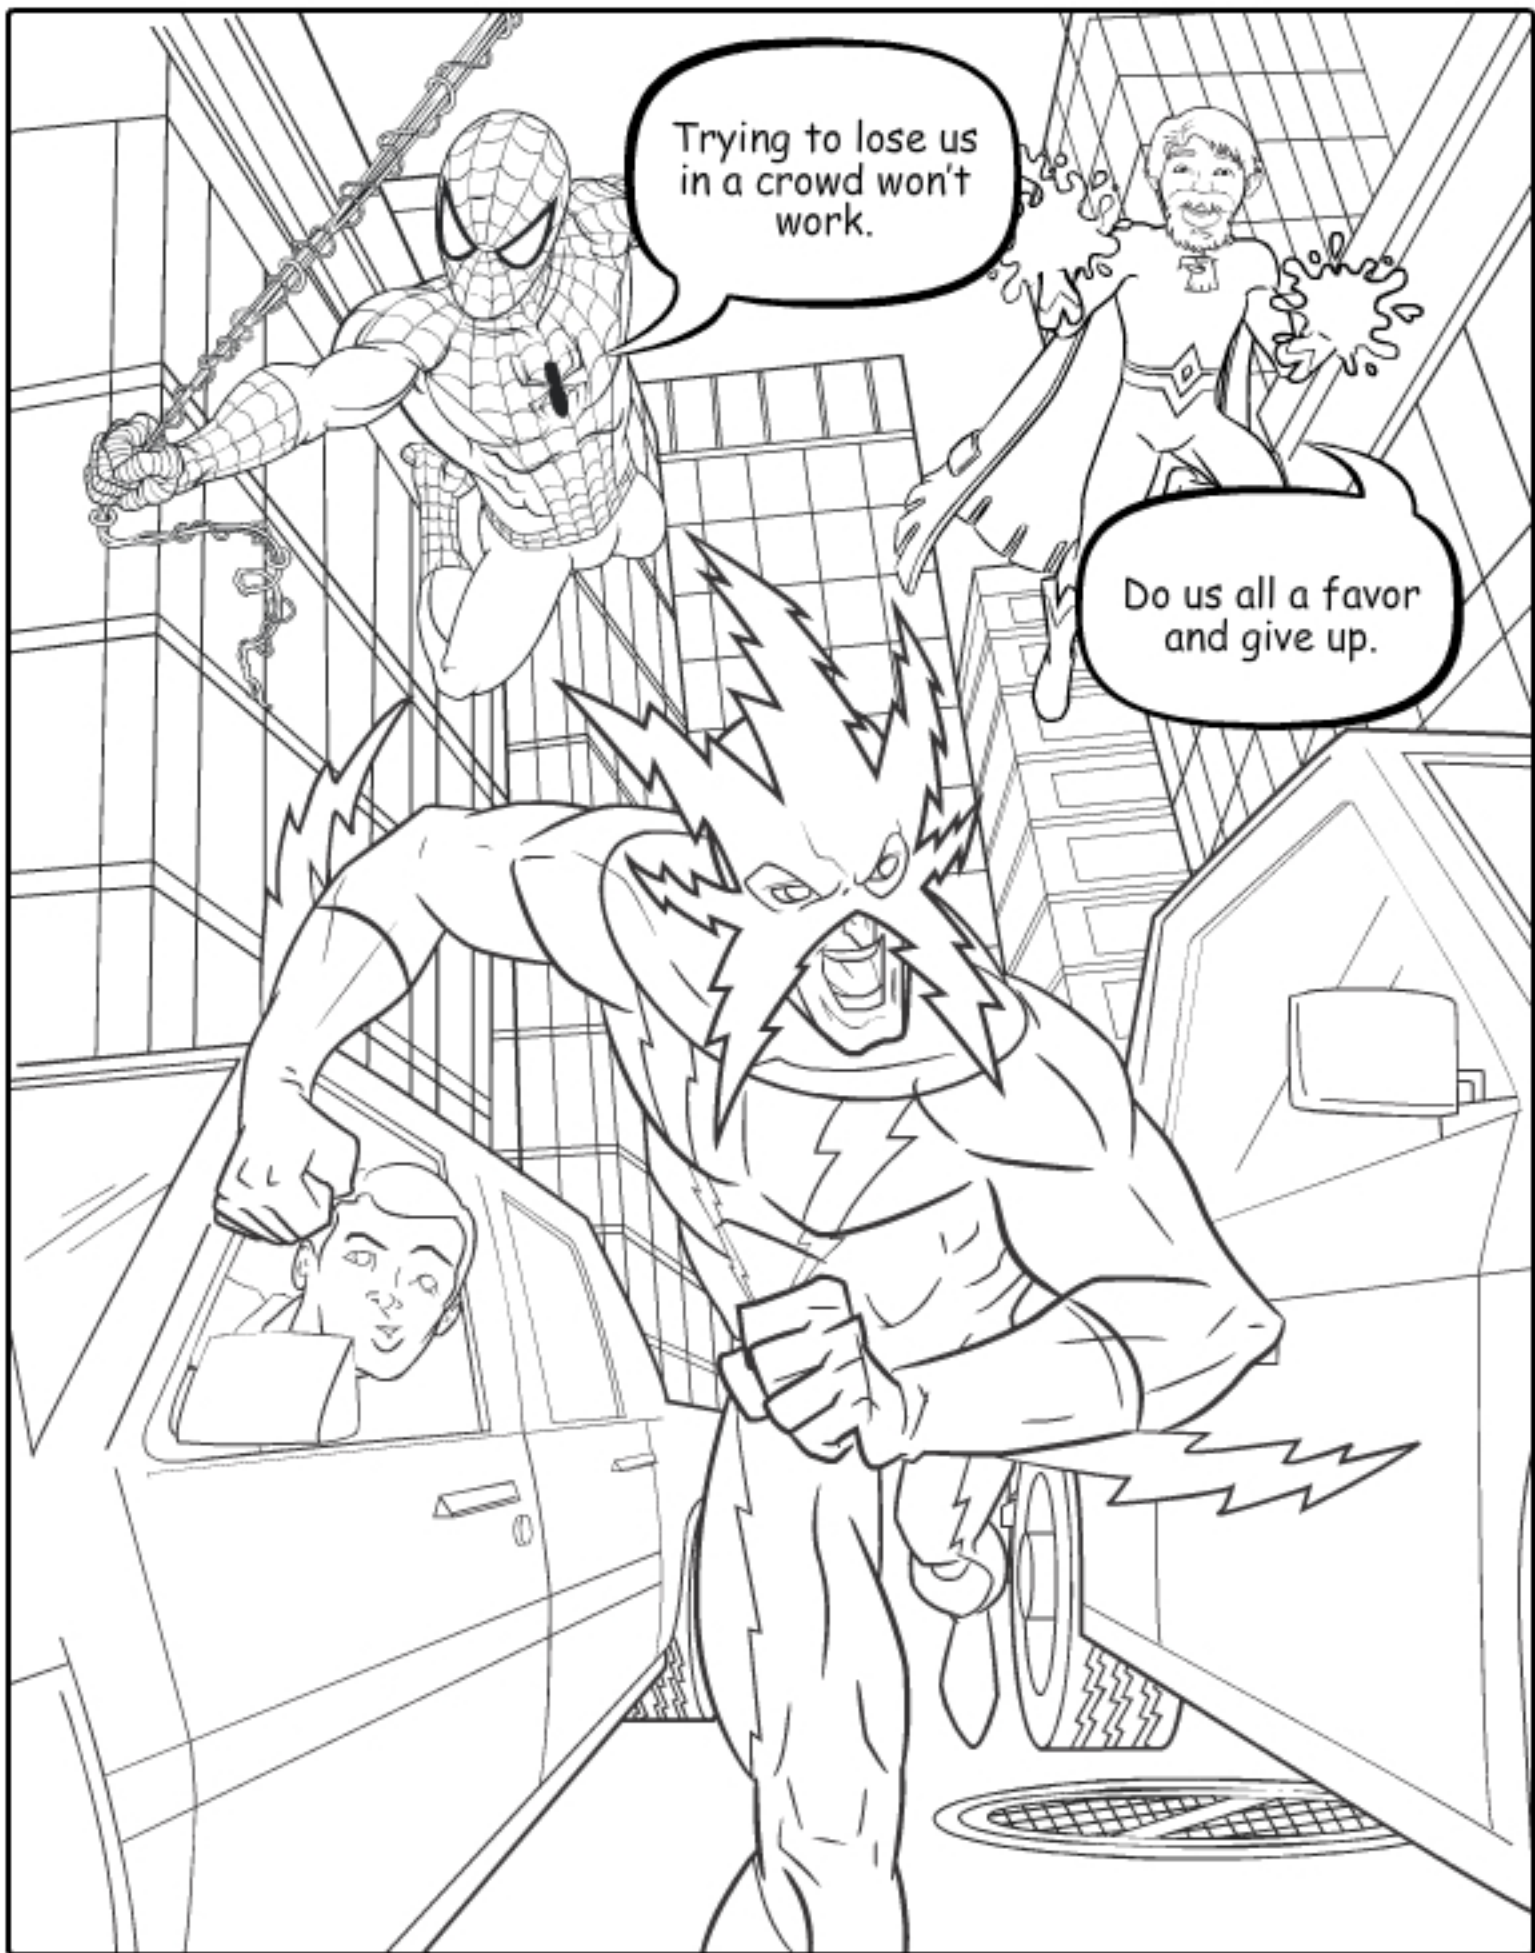

See you later,
losers.

KA-BOOM!

Electro jumps on the roof of a passing
bus to escape.

No. He can't get
far in the heavy
traffic.

He's getting
away!

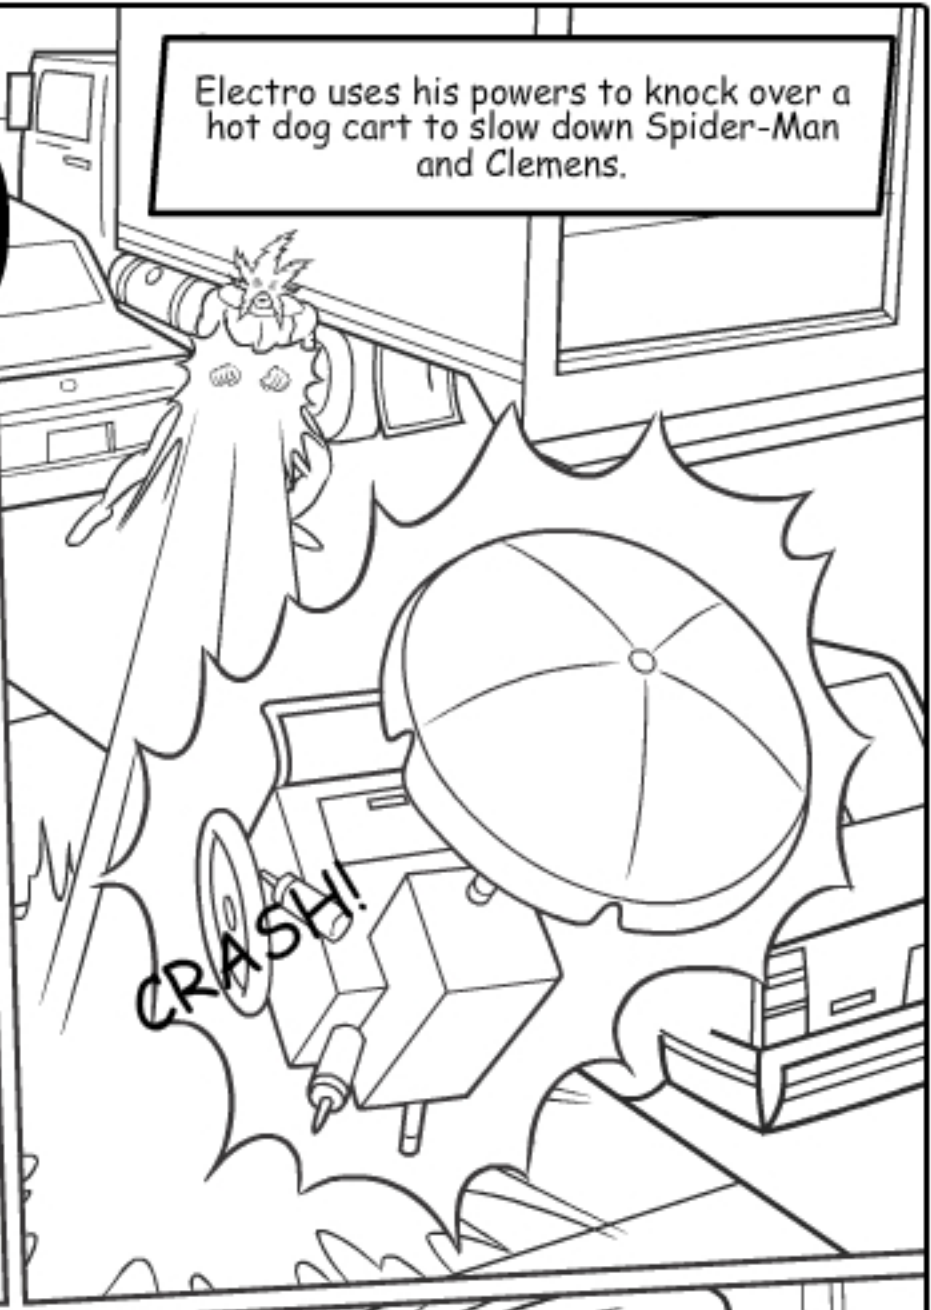

Trying to lose us
in a crowd won't
work.

Do us all a favor
and give up.

Back off.

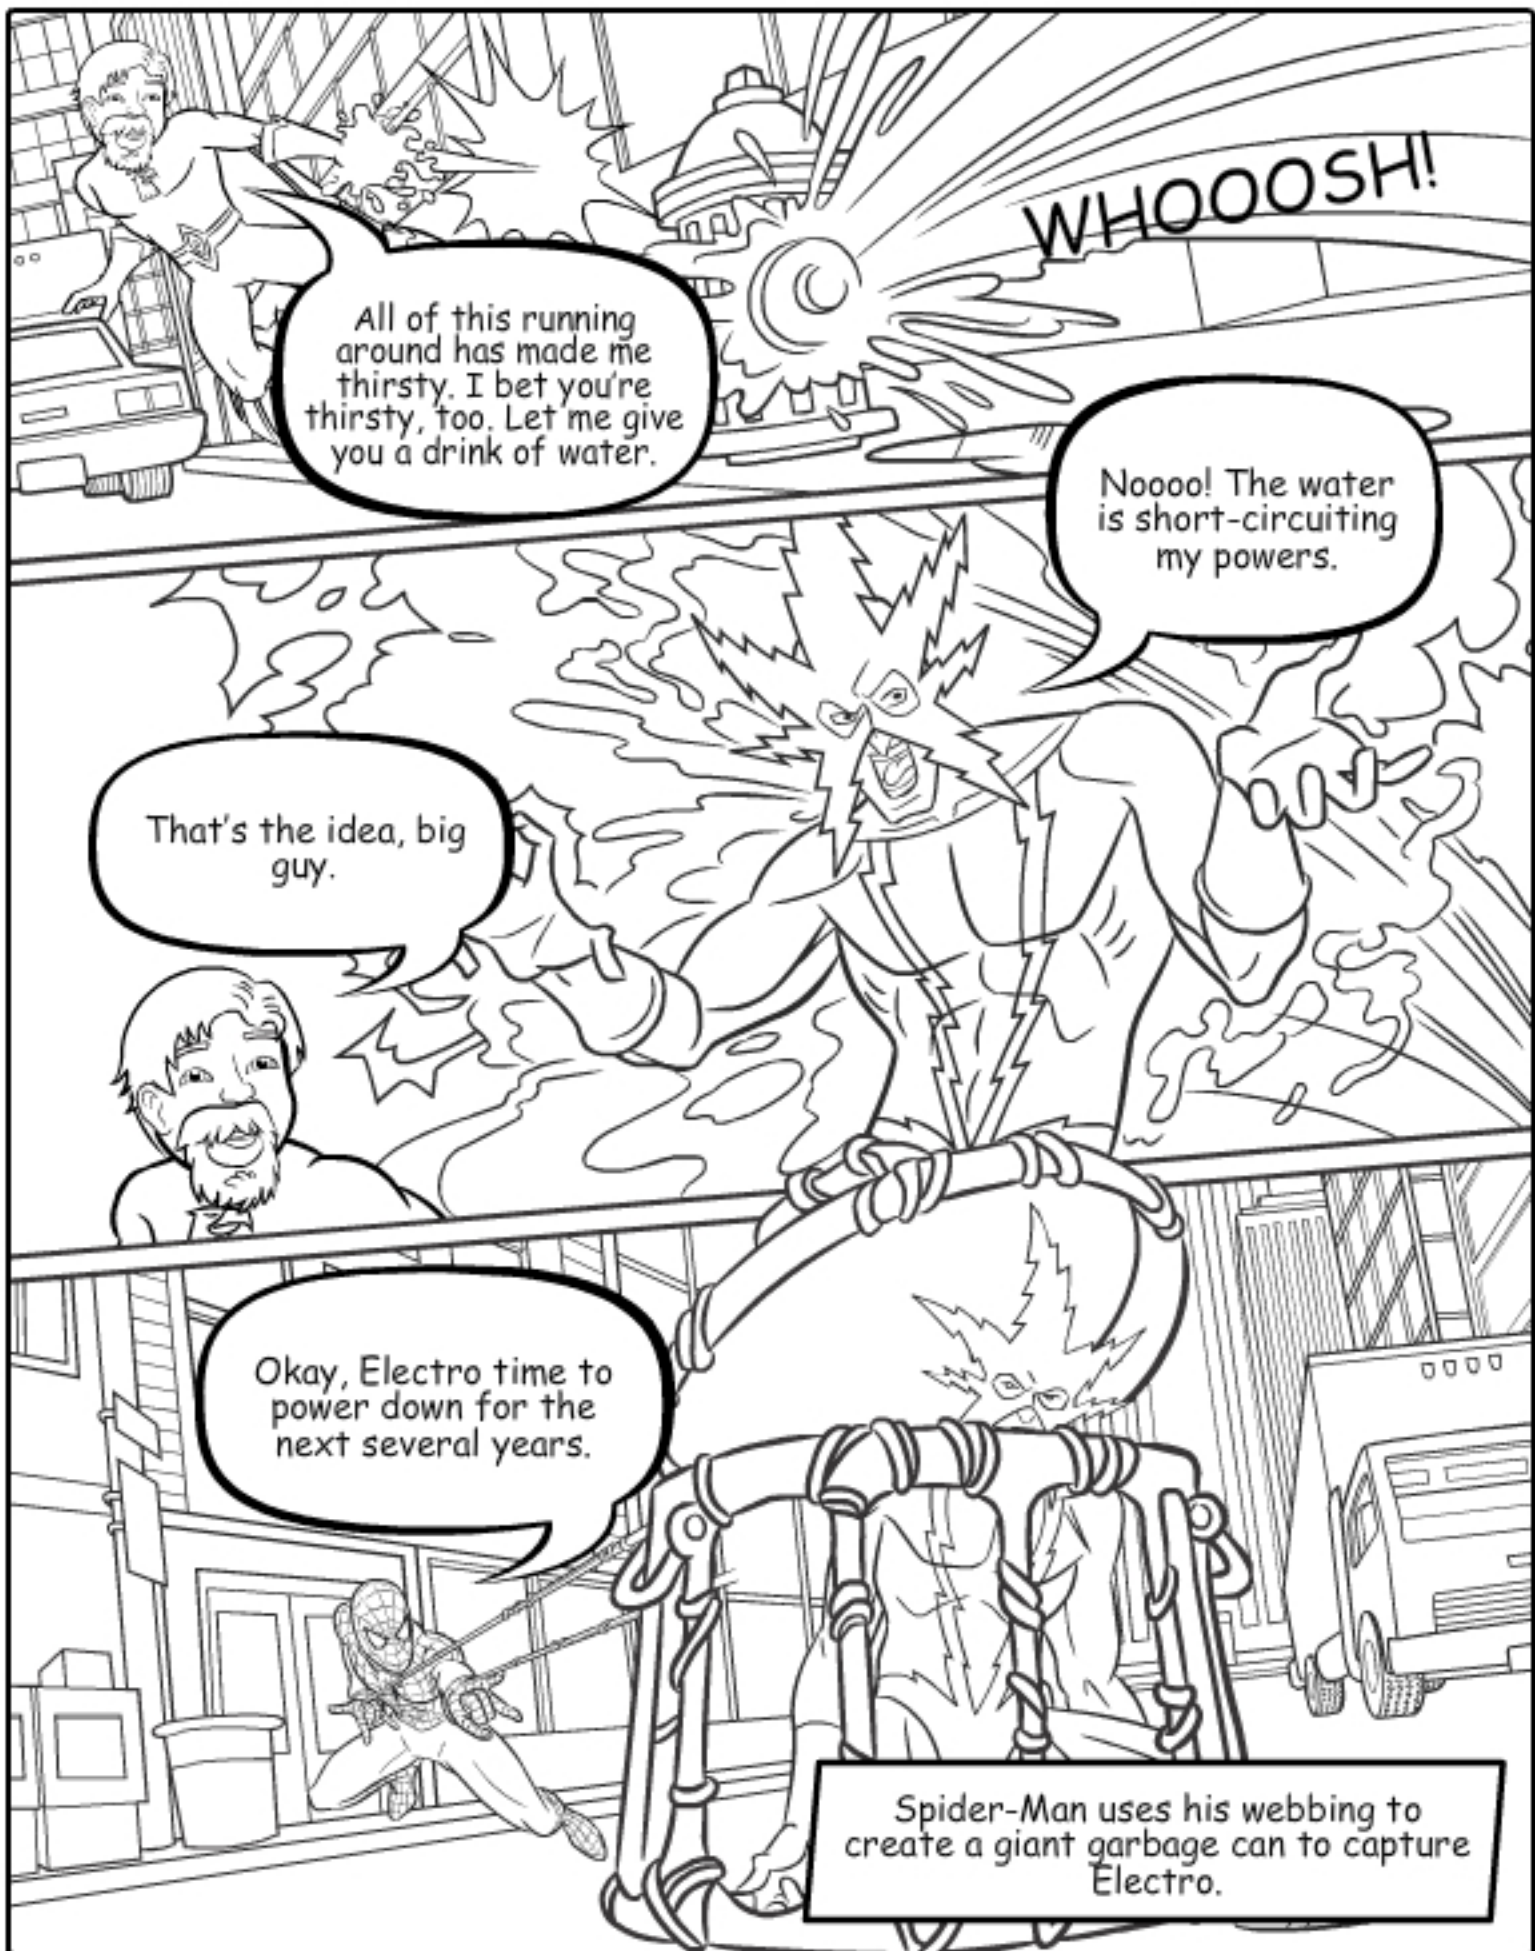

Electro uses his powers to knock over a hot dog cart to slow down Spider-Man and Clemens.

CRASH!

Spider-Man uses his webbing to catch everything that Electro throws his way.

WHOOOSH!

All of this running around has made me thirsty. I bet you're thirsty, too. Let me give you a drink of water.

Noooo! The water is short-circuiting my powers.

That's the idea, big guy.

Okay, Electro time to power down for the next several years.

Spider-Man uses his webbing to create a giant garbage can to capture Electro.

After Electro has been taken to jail, Spider-Man and Clemens help turn the lights back on in the city.

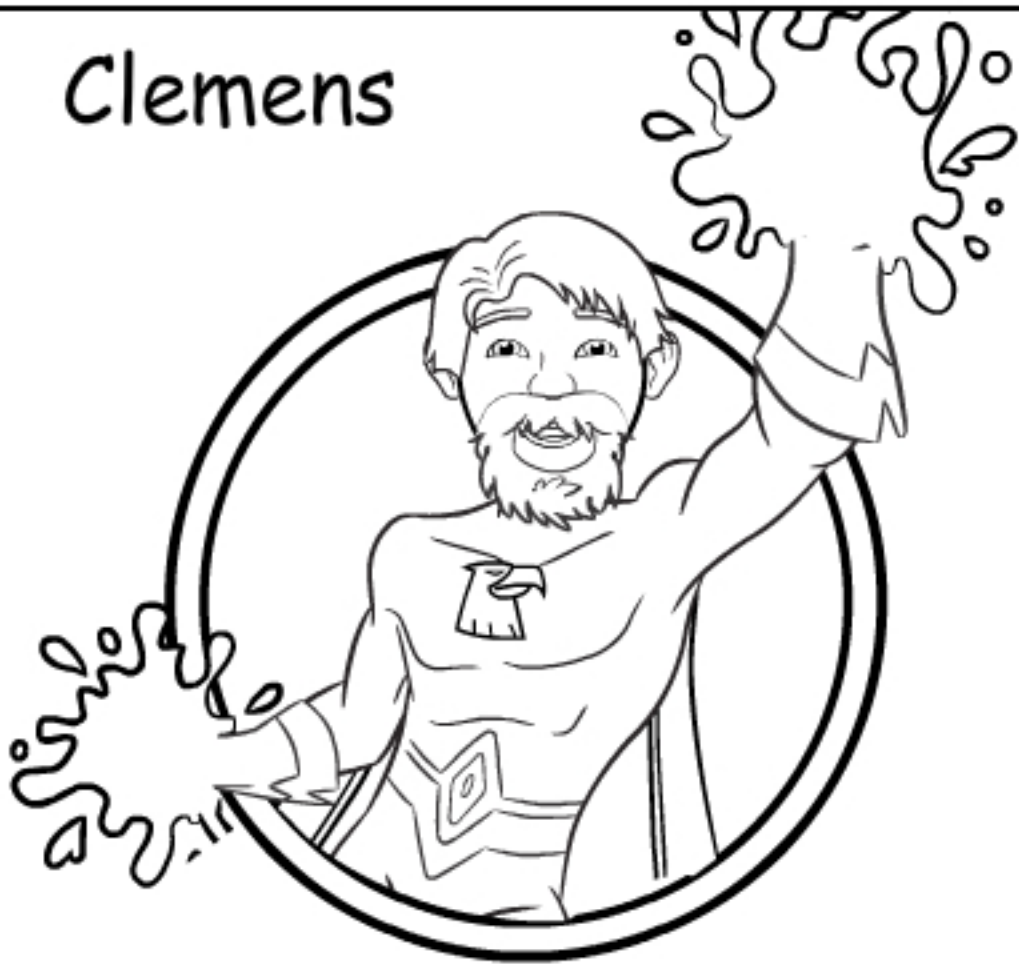

There, that will
restart the
generators.

Now that Electro is
locked away, things are
looking brighter for
everyone.

The End.

Clemens
